The Workshop is organized by Shom (<https://www.shom.fr/en>) in the framework of the eMSP-NBSR project (<https://www.emspproject.eu/>).

This day event will focus on the continuation of the work on the 2 case studies (blue corridors and maritime surveillance) in the morning, followed by a joint session with the International Hydrographic Organization (IHO) European Union Network Working Group (*IENWG*, <https://iho.int/en/ienwg-ec-iho-cooperation>) in the afternoon. This subgroup of the IHO targets challenges such as surveillance activities, offshore renewable energy, maritime spatial planning, implementation of the Marine Strategy Framework Directive, marine research and data standards (including those specified by INSPIRE Directive 2007/2/EC).
